

## FY2015CHNA&HIP Progress Report

### Jefferson County

#### Community Health Improvement Plan

GOAL	Strategies	Progress on Strategies
To provide diabetes education to the public.		Jefferson County Health Center was able to meet requirements for a certified diabetes education program. Low numbers and course cost were a barrier to class participants.
		Jefferson County Health Center is currently offering diabetes education classes every 6-8 weeks, free of charge.
		JCPH administrator continues to serve on diabetes advisory board, which meets quarterly.

GOAL	Strategies	Progress on Strategies
Work with local community partners to identify and maintain an emergency shelter.	Continue to work with local elected officials and businesses to ensure shelter site will be identified and maintained.	shelter site has been identified, working to secure funding to purchase a generator for the site.
		Jefferson County is in the process of appointing a new emergency management coordinator on July 01, 2014. He resigned the position and a new EMA was appointed May 2015. This will be addressed in future meetings with county partners in late 2015.
